During summer camp, your children will enjoy all kinds of fun, creative and educational activities with us. The following are some of the activities that we have planned with many surprises in store!!

## Music and Dance

Movement and dance activities improve coordination and balance and allow children to explore physical movement. We will have music-making, sing along and music listening activities which will help develop self-discipline, as well as critical and creative thinking skills, a fun way to learn new skills!

## Story Telling and Role Play

This will give children the chance to try on a new role and provide an outlet to be who, where, and what they dream of being. We will tell stories and listen as imaginations run wild while your children challenge themselves with opportunities for self-expression through this storytelling and role-playing.

## Arts and Crafts

Our Arts and Crafts activities will allow children to express their ideas and feelings through a variety of new techniques and materials. Your children will experience and create with numerous art mediums and models and learn to utilize their creative talents while displaying them for everyone to enjoy. We give children the opportunity to highlight those priceless creative works of art!

## Baking

One of a child's all time favourite things to enjoy is food. They will each get the opportunity to become the chef where they are free to experiment with special recipes. They will have fun as they explore all aspects from preparing to tasting the end result!

## Outdoor Recreation Sports and Games

Children love to play games over and over until they feel accomplished and victorious! Our outdoor sports days will provide familiar games and activities, as well as new ones that will challenge your children while ensuring they are having lots of fun!
